

# Fly screens and sun shades for windows REMibase II / REMiflair / REMIsun roller blinds

## Fly screens and sun shades for windows by REMIS

- Simple and quick application for effective protection against insects or for cosy privacy or soothing darkening. Depending on the product, there is also the option of setting a combination.
- Existing roller blinds can be easily replaced with a high-quality REMIS roller blind that fits the window cut-out perfectly and blends in perfectly with the interior.
- The roller blinds are available in many standard sizes and are characterised by high stability, durability and low installation effort.
