

Versatile and eye-catching:  
**StarLine** – the product family  
for caravans and motorhomes!

## KESSEBÖHMER STARLINE

**StarLine:** Developed specifically for caravans and motorhomes.

The **StarLine range of aluminium posts** offers a complete choice of outstanding solutions. As always, Kesseböhmer designers set a high priority on important functional details and an elegant design. Light weight, high stability and a high-end design – these are features of the whole **StarLine product family**.

The unique clamping system (patent pending) gives the StarLine table outstanding stability. The easy rotating action of the clamping handle is extremely user-friendly. The handle flips down, out of the way of people's legs, when not in use.

\*Patent pending

## How the **StarLine** clamp works

- [1] **Table position:** handle flipped down against the post to maximise legroom
- [2] **Operation:** rotate the handle forwards to activate the raise/lower function
- [3] **Unclamp:** push handle to left
- [4] **Clamp:** pull handle back to centre

As standard, the slide function also allows the tabletop to be turned by 90°.

Freestanding or screwed to the floor, with a sliding tabletop fitting or without, fixed height or height adjustable – the **StarLine product family** has all the options covered.

StarLine sliding tabletop fitting 250/250 mm (330/250 mm) – the sliding fitting (SF) can be rotated by 90° as standard.

Fixed tabletop connection for the StarLine HPK and HPG

## StarLine HPK

Height-adjustable post  
with small foot plate  
(screws to floor)

Lift height: 310–670 mm  
(without tabletop)  
Weight: 6.7 kg

**Art. no: 118100901 9006**

## StarLine HPG

Height-adjustable post  
with large foot plate  
(cannot be screwed down)

Lift height: 315–675 mm  
(without tabletop)  
Weight: 10.0 kg

Without floor plate

**Art. no.: 118101901 9006**

With floor plate

**Art. no.: 118102901 9006**

## StarLine HVK

with tabletop sliding function  
incl. 90° rotate function

Height-adjustable post  
with small foot plate  
(to screw down to floor)

Lift height: 340–700 mm (without tabletop)  
Weight: 10.5 kg

250/250 mm slide distance

**Art. no.: 118110901 9006**

330/250 mm slide distance

**Art. no.: 118111901 9006**

## StarLine SVK

with tabletop sliding function  
incl. 90° rotate function

Fixed post  
with small foot plate  
(to screw down to floor)

Height: 700 mm (without tabletop)  
Weight: 9.4 kg

250/250 mm slide distance

**Art. no.: 118130901 9006**

### StarLine from Kesseböhmer:

- ✱ Light weight
- ✱ High-end design
- ✱ Designer aluminium profile
- ✱ Patented\* clamping system
- ✱ Optimised legroom
- ✱ Ultra-easy to use
